Web Innovators Hackathon 2024: Hacker's Checklist

Hello Hackers! With the Web Innovators Hackathon 2024 approaching on **DEC 16-DEC 18**, our team has prepared this document outlining some essential items that you may want to bring when you attend the main event. Please ensure you and all your team members go through this checklist to avoid forgetting anything important!

- **Chargers, Wires, and Adapters**

Make sure to carry chargers and wires for all your devices (laptops, phones, tablets, smartwatches, etc.). **We will provide multi-plugs at the venue**. If your chargers require non-standard plugs, bring the necessary adapters.

- **Prescribed Medicines and Skincare Items**

While over-the-counter medicines and a first-aid kit will be available, ensure you bring any prescribed medicines. Also, pack your prescription glasses, contact lenses, and skincare essentials.

- **Personal Hygiene Items**

As you'll spend two days at the venue, bring toothbrushes, toothpaste, towels, and other personal hygiene items. Female participants should carry sanitary napkins if necessary.

- **A Change of Clothes**

Pack comfortable clothes and at least one extra set, even if you feel comfortable wearing the same outfit.

- **Winter and Sleeping Essentials**

You need to bring a personal mug or tumbler for coffee and tea. **While sleeping bags and mats will be provided,** consider **bringing a pillow or neck rest**.

- **Peripherals, Headphones, and Earphones**

Feel free to bring any peripherals like keyboards, mice, or laptop stands to make coding more comfortable. To avoid disturbing others, **carry headphones or earphones.**

- **External Storage Devices**

If your team plans to work with large datasets or files, ensure you have flash drives, SSDs, or other storage devices handy.

- **Food or Snacks You Regularly Eat**

While meals and snacks will be provided, you may want to bring personal snacks and candies for convenience.

- **Personal ID**

Carry a personal identification document for registration or any other formalities during the hackathon.
